

Elevate your old access system

There's a different way to approach **retrofit installations**.
Offer innovative solutions that make your work easier!

Forget about cabling

Cabling isn't an issue, because you don't actually need any! 2N offers wireless intercom solutions

Intercom calls & access control in one app

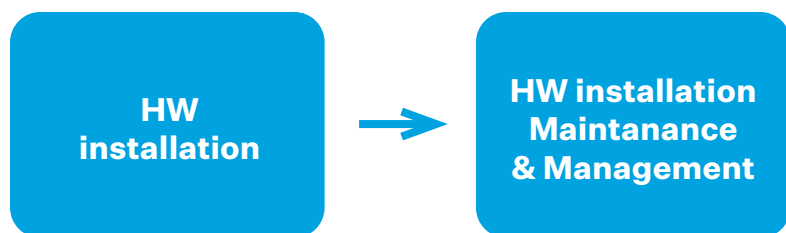

A single app (My2N) will allow residents to answer intercom calls and access the building

Remote Management

Manage your site with the My2N Management Platform that gives you full control of installations from anywhere. Solve 4 out of 5 issues online!

Evolve your business

Even though My2N Management Platform is free for you, it allows you to **monetize the management and maintenance** of video door entry and access control systems.

Enjoy a new pricing model

9137954

One-off license for 10-year My2N subscription

Take advantage of the new one-off payment model for cloud calling. This limited offer makes the whole solution cheaper than ever. **Contact your 2N reseller for more information.**
